SYSTEMS

With the friendly  
assistance of:

NECKAR-  
ODENWALD-KREIS  
DISTRICT FIRE  
BRIGADE

TRAINING CENTER  
RETTEN & HELFEN

**WELCOME!**

Following on from RESCUE DAYS 2018 in Bostalsee, the biggest training event in the field of technical rescue support is being held this year from 17<sup>th</sup> to 20<sup>th</sup> October on the premises of TCRH in Mosbach (Baden-Württemberg).

Unlike in previous years, this time we are concentrating on the **rescueDAYS Original**, which will run for two days. This means that you will have the opportunity to participate in the RESCUE DAYS either on Thursday and Friday or on Saturday and Sunday. The event can be booked in German or English.

With the **rescueDAYS Original** we want to address rescue workers of various nationalities.

Over 80 international trainers from WEBER RESCUE SYSTEMS will train about 600 participants from all over the world over the four days of the event.

In addition there will be a **rescueDAY Symposium** again on two days (Friday and Saturday) with a series of interesting lectures on current topics in the field of vehicle construction and rescue technology.

The one-day special seminars on Sunday are no longer available.

As in 2018, the theoretical elements will no longer be taught separately, but will be incorporated during practice.

In preparation, all participants will receive a digital handout with the seminar contents in advance.

You can register online as usual at **[www.weber-rescue-shop.com/rescue-days](http://www.weber-rescue-shop.com/rescue-days)** and which is possible from 20/3/2019.
